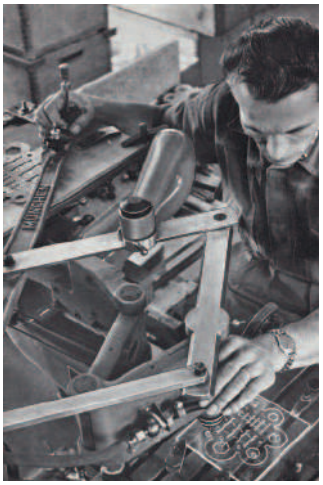
LINEX®

Linex



At a glance

LINEX was founded by a young man studying to be an engineer.

In 1923 he started making his own drawing and measuring tools for him and his fellow students. He was not satisfied with the quality available on the market.

In 1935 the company LINEX was officially founded and modern production facilities was built.

LINEX has focused on high precision drawing materials and has added additional product lines to the brand over the years.

LINEX is represented in more than 50 countries around the World and we consider our selves a global brand.

Our strategy

Changing markets and consumer needs.
Due to the new digital possibilities used in technical drawing, the need for manual writing and drawing materials for professionals is declining.

Keeping the leading role for drawing, writing and hobby materials for students and professionals trough new products and convenient solutions.

Our future – the children:

- Providing good affordable products for both school and private use.
- Helping children to understand theoretical educational skills – our Active Learning concept.
- Equipment for educational institutions on all levels.

Why?

We help and inspire people to create better results.

How?

We enhance performance of children and adults by merging, learning, creativity and precision.

What?

We develop the most accurate and user friendly learning, measuring and drawing tools.

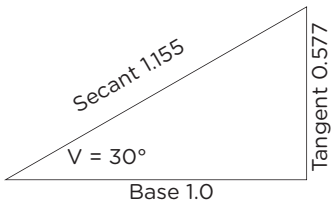
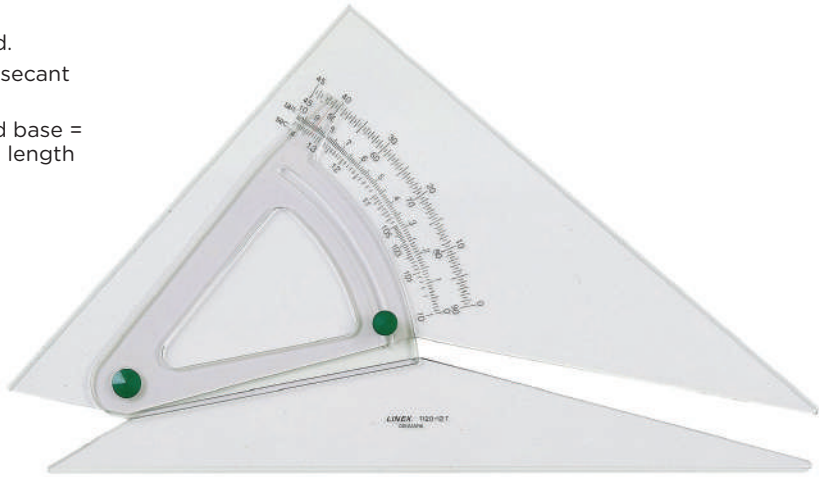
Adjustable Set Squares

All angles between 0-45° are automatically indicated.

Additionally, for length of base = 1, the length of the secant and the height of the tangent are indicated.

Example: V = 30°, tangent = 0.577, secant = 1.155 and base = 700 mm, then height = 0.577 x 700 = 403.9 mm and length = 1.155 x 700 = 808.5 mm.





Adjustable Set Squares

Adding play to math

Studies show that many children learn math better by using their sense of touch than by staring into a book. Linex Active Learning tools allow children to get to grips, making math both easier and more fun.

Math doesn't have to be all about tricky numbers on a page.

Base 10 Set, Plastic

Product info:

- Contains 121 parts
- 1 blue cube (1000), 10 green falts (100), 10 yellow rods (10), 100 red units (1)
- Manual included

Used for pre-school/primary school

Product use:

- Enhance understanding of the decimal system as well as additin, subtraction, number sense, percentages and counting.
- The set is color-coded to help the students quickly differentiate place value by comparing the red units, yellow rods, green flats and the blue cube.
- The students are helped towards a better understanding of these abstract concepts by seeing, touching and comparing physical models of units, tens, hundreds and thousands.

Geometrical Shapes with Forms and Sections

Product info:

- 6 geometric shapes made of recycled plastic
- Height 10 cm
- 5 colored lids, 6 forms of durable plastic, 6 sheets for overhead projector and seperat sections
- Manual included

Used for middle school

Product use:

- To identify, describe and calculate base areas, top surface of area,
- side surface, forms, volume, surface, surface of revolution and axis.
- The teacher explains basic characteristics of each shape so the students easily can recognize the terms when they compare the shapes.
- With separated sections you can show several segments and you can calculate and compare several volumes.

Geometrical Shapes

Product info:

- 10 geometrical shapes made of recycled plastic
- Height 15 cm
- Manual included

Used for middle school

Product use:

- This set can be used to identify relationships between the volumes of the individual shapes.
- The shapes are also suitable for helping students to recognize three-dimensional geometrical forms, edges, corners and diagonals.
- Create better understanding of volume by filling the shapes with water or sand.

Want to create great things?

For ultimate precision – X-actly!

Linex has always been synonymous with ultimate precision, offering high quality drawing and measuring products for professionals, office workers and students since 1935.

Boasting a long and proud history of product development, Linex continues refining the product range to ensure that customers get precision and reliability every time, with every purchase.

And now, in keeping with our focus on refinement, our classic green logo colour has been updated with a fresh touch of spring green. New logo colour, same Linex quality.
