PIERRE

BUSINESS & LEISURE GOODS

2021

PIERRE Although the name sounds French, the Pierre brand originated in Sweden. Pierre was founded in 1982 by Bengt Pierre in response to a perceived lack of variety in the leather bags, attaché cases and other items available on the market. This was the starting point for a wide range of elegant bags for the modern businesswoman and businessman. In 2005 the Pierre brand was acquired by Bantex and has since become part of the Hamelin Group. This provided the company with the support to expand and develop even more bags, briefcases, suitcases and sophisticated accessories designed for modern people on the go. People who increasingly blur the boundary between work and leisure. People who are always on the move and who need to carry the most essential items to enable them to stay connected - when both online and offline. People for whom high quality and reliability are essential in order to do their best every single day. Pierre has, since Bengt Pierre's original desire for refined craftsmanship and adaptable materials, continued to develop and refine its products and selection to fulfil even the toughest personal requirements. The result is tangible – literally – and it is characterised by precision in every detail. When you see the real thing, you know it. Discover it for yourself. All Pierre products carry a 5-year guarantee on manufacturing and material defects.

Washed canvas is a small range of bags in classic style, the fabric gives the products a modern and relaxed style that appeals to both businesspeople and students.

400127292 Women's Computer Bag

Smart women's computer bag in washed canvas with space for a laptop of up to 14". Long straps so that it can be carried across the shoulder, or a long strap that can be attached.
